lack of
food

- An increasing number of wild animals are **dying out**.
- The **mass extinction** is caused.

poster

What message do these posters share?

Wild animals are in danger!

listening part1:

What on Earth Are We Doing to Our Planet?

Our planet's wildlife is dying out at an alarming rate.

Between 150-200 species are becoming extinct every day. This mass extinction is caused by hunting, habitat loss, and pollution. We must make people aware of the problem and help protect the endangered wildlife before it's too late!

listening part2:

1. How many elephants are killed on average every day? 54

2. What did Prince William say about China?

- B**
- A. China has made a lot of progress.
 - B. China can become a global leader in wildlife protection.
 - C. China preserves its natural habitats well.

3. What does the speaker tell us at the ending of the speech?

Change begins with you!

If we want things to change, we must change ourselves first and not wait for others to change first. We must be the change we want to see in the world.

Someone has to 1. speak up for endangered animals. Some famous people, such as Chinese superstar Yao Ming and Britain's Prince William, work hard to help. In October 2015, Prince William 2. gave a moving speech on CCTV: "In the 33 years since I was born, 3. we've lost around 70 percent of Africa's elephant population. Of those that are left, 20000 are killed every year. That is 54 elephants killed every single day." That means 4. there are elephants which are being killed right now!

In his speech, Prince William also praised China's efforts to protect wildlife: "5. I am absolutely convinced that China can become 6. a global leader in the protection of wildlife." You don't have to be Prince William or Yao Ming to speak up and do something 7. about endangered animals. You can 8. be the voice of wildlife protection in your area. Remember: Change begins with you!

In face of the massive extinction of endangered animals, what can we do to preserve them from dying out ?

What can we do to preserve them from dying out ?

- ◆ If a problem **seems too difficult for** a single nation, the **global community** can sometimes **provide a solution**. People organized **international organizations** to **preserve wildlife** together.
- ◆ Laws should be passed to **stop** people **from** killing or hunting them.
- ◆ **Nature preserves/reserves** are **set up** so that wild animals can **live in peace** with no hunting.
- ◆ People **are educated to be aware of** the importance of wildlife protection.

保护野生动物

PROTECT WILD ANIMALS

没有买卖就没有杀害
维护生态平衡

When the buying stops, the killing can too.

The protection of wild animals and plants is essentially to protect the ecological environment on which human beings live, is to protect the homeland of human beings.

-- Xi Jinping
