III. 语篇填空

Gender roles in Western society 21. _____ (change) over the past two hundred years. We often think that 22. _____ (marry) men were the main worker for their family, 23. _____ women managed the house and children. The truth is more complicated. There may have been male jobs that women weren't allowed to do, but the 24. _____ (major) of poor women didn't have the luxury of not working. Of course they would cook lunch and dinner, and maintain the home, but many women also worked during the day. They could be teachers or seamstresses, and farm wives would even help 25. _____ the farm work in the fields during the harvest season. When the Industrial Revolution happened and we started to make things with 26. _____ (machine), there was a major shift in the kinds of careers that women could have. They didn't have to be strong to work in a factory! And after the First World War, a mass of jobs 27. _____ had been left empty by soldiers went to women. Suddenly there were women working in magazine printers, as retail managers, and all manner of office jobs! Women no longer needed the safety of marriage to support 28. _____ (they). Across the map, women marched for, and won, the right 29. _____ (vote). Today, women still earn 30. _____ (little) than men for doing the same jobs. The fight for equality is an important matter, and we get closer to real equality every day.
