Futuroscope-Exciting And Learning

邱赛仙

浙江省衢州第三中学

step 1: Talking

What is the theme park you are dreaming to visit ?

step2: Viewing and thinking

Futuroscope can satisfy all your demands

What do you expect to read from the passage with the help of the map of **Futuroscope**?

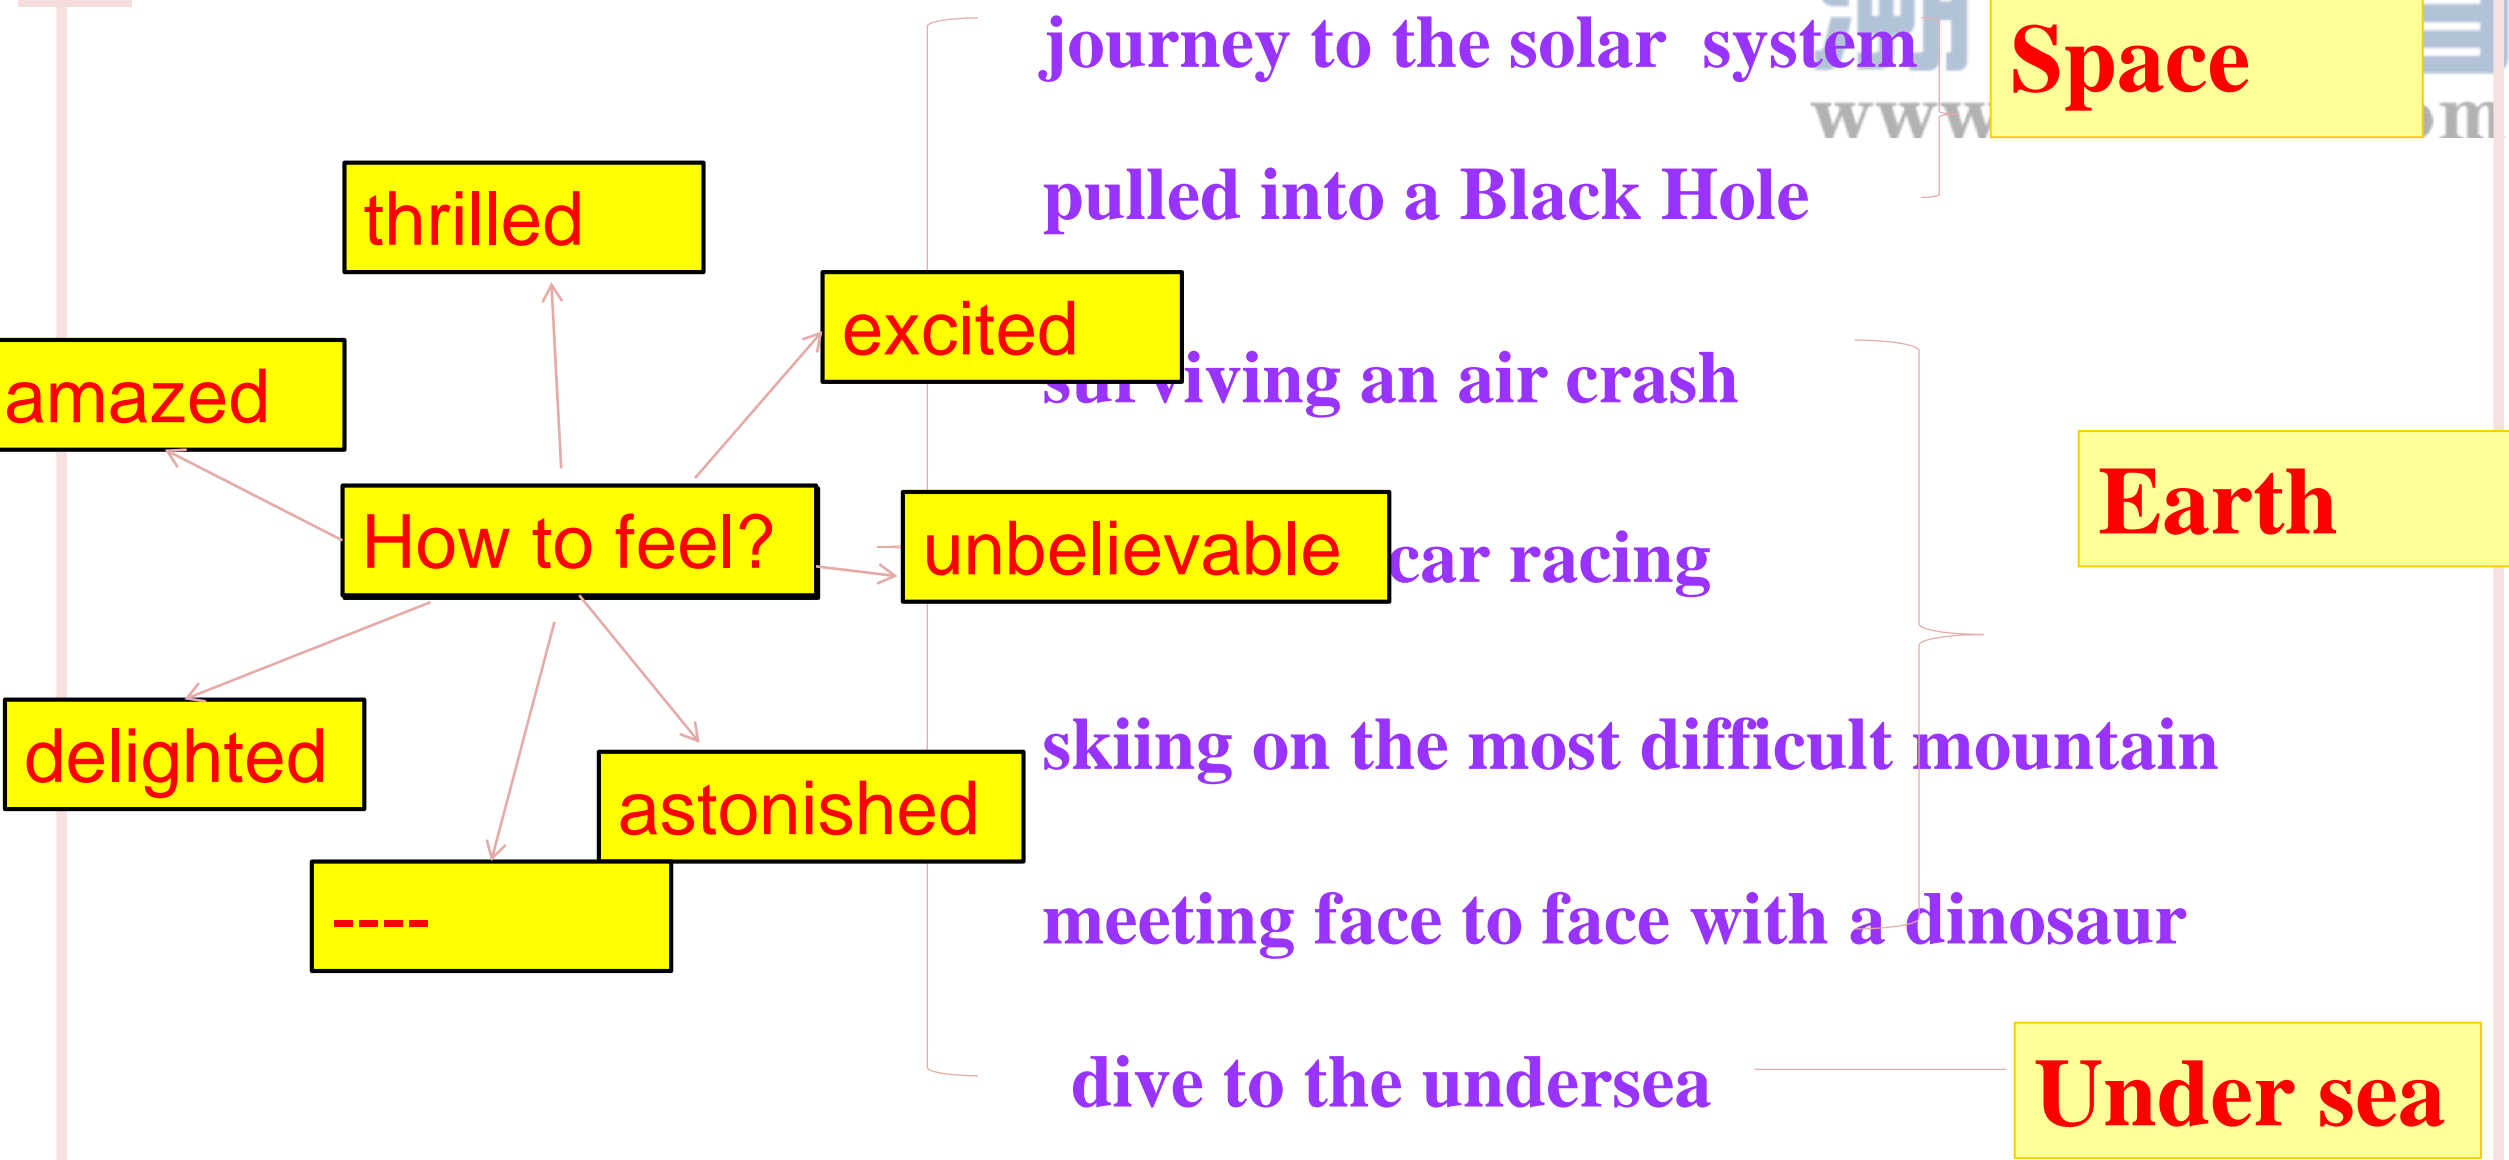

what to see?

what to do?

How to visit it?

what to learn

Step3: Reading and checking

How did the author describe so rich an experience?

**in time
order**

Last week I took a journey deep into **space** to the end of the solar system, and was pulled into a black hole. **Then** I took a trip to Brazil and experienced surviving an airplane crash in the **jungle**. **After that**, I joined some divers and went to the bottom of the **ocean** to see strange blind creatures that have never seen sunlight. **For a break**, I took part in some **car racing** and then skied down some of the most difficult mountains in the world. I **ended** my travels by meeting face to face with **dinosaur** saur, the terrible T-Rex, and

**thrilling activities in
space, land and
the ocean**

How can the park make it ?

advanced technology

future — scope

3-D cinemas — giant movie screens

brand new experiences — exciting — not close to — learning — experiences

Step5: Writing

Suppose you are a staff member of Futuroscope, make a brochure to advertise the theme park.

FUTUROSCOPE - EXCITEMENT AND LEARNING

If you want to experience the most advanced technology, visit the edges of the solar system and make the world come to life, then the Futuroscope is the ^{right} place for you, which is one of the largest space-age parks in the world.

The most important is that it is not only for individuals, but is also the perfect mix of fun and learning for class outings. If you're willing to go there, buying tickets at the park's entrance, go down this path and turn left at the first crossing, you will find the Children's World, the Gardens of Europe and the Travellers by Air and by Sea. Or you can turn right, other exciting activities are waiting for you!

Learning this, if you are on the edge of your seat, come to visit

No one could resist the charm of the Futuroscope. It was a fantasy land which bring us into a magic world where we never been

The edge of our universe has billions of stars which has ~~the~~ shining for billions of years.

The bottom of ocean has special creatures with frightening looks.

FUTUROSCOPE

- One of ~~the~~ the largest space-age parks in the world a science and technology-based theme park full of fantasy.
- Tickets are available online.

Large groups book in advance can get the group admission rate.

Nearby hotels provide a shuttle service to the park.

If driving, Futuroscope is with easy reach of the freeway.

- It has various activities, ranging from dive to a car racing.

As children, they can widen their sight during the a trip.

As adults, flying through jungle and visiting the edges of

a the solar system can make it a unforgettable experience.

Futuroscope's brochure

Have you imagined that one day you could travel around the solar system to figure out its mystery? Have you imagined that one day you could ^{be} able to go to the bottom of the ocean to see strange blind creatures which have never ^{seen} sunlight? If you haven't, there have never been any necessity for you to feel disappointed and regretful. For nowadays, everything could become reality and it also means you could experience what you expect by yourself instead of imagining. If you want to start the mystery tour, please sign ^{up} for the journey at your earliest convenience and I promise you will have an unique adventure.

A brochure about Futuroscope.

Futuroscope is a science and technology-based theme park in France, where you can learn lots of knowledge and enjoy yourself well. If you go into the park from the Main Entrance, turn left and walk for 200 metres, then you will see the Gardens of Europe, where you can see many different kinds of gardens ~~from~~ in different periods. Then go back and go down the path, turn left to the Deep Sea 3D, in this place, you will enjoy yourself on the trip to see the world of the deep sea, which ~~yo~~ will make you find know more things about the world. Last, in the Star of the Future, you will imagine how the world looks like in the future. Futuroscope is a magic park, which is not only for kids but
