Dear David,

Having reviewed your initial draft for the poster design competition on "Protecting Wildlife", I'm writing to offer some suggestions for improvement.

Your design seems to lack a message that can motivate people to take action. Additionally, the quality of the images and the cluttered layout need to be improved.

Therefore, I suggest you use a concise and convincing message and high-quality images relevant to the theme. Meanwhile, you'd better simplify the layout by removing some unnecessary elements that distract attention from the message.

I hope my feedback is helpful. Best of luck with your design.

Yours,

Li Hua
