A fountain pen with a dark barrel and a gold-colored nib is positioned horizontally at the top of the image. To the right of the pen, several pink roses with delicate, light-colored stamens are visible, partially overlapping the edge of the paper.

Steven
(a doctor)

My name is Steven and I am a doctor. In my entire medical career, I have never seen some of the things that I have seen here ... I have shed so many tears over these patients (both who live and passed away). I have done lots of first aid; I have driven fear off patients and I have gotten patients' pulses back. ..

Let's Listen!

We saw some of the toughest moments of our career. Unfortunately we've seen a lot of passing away but it's been an honor to be there with them. Unfortunately the families of the patients can't be there. Unfortunately they're alone, but we've been there for them to hold their hand at the very last minute.

Jason Anderson
(a nurse)

The pandemic is terrifying, but the medical workers are devoted/selfless...!

I left my 8-month-old baby boy to work here. It's been rough, especially the first week and a half. Everything you see on the news is true but probably worse. But we just face the virus bravely, working around the clock to comfort and rescue people.

As India applies a nationwide lockdown due to the novel coronavirus pandemic, one police officer has found a creative way to ^Fget the message across. Rajesh Babu, a police inspector in the southern city of Chennai, wears a specially designed coronavirus helmet(头盔) while stopping vehicles and walkers at checkpoints. A local artist ^Ccame up with the idea after noticing ^Aa lack of public awareness around the pandemic and preventative measures. He saw people ^Eroaming here and there without proper safety equipment. So he decided to create something as a reminder to urge people to ^Btake the disease seriously. His idea got supported by the police, especially police inspector Babu. Dressed as the coronavirus, he would say: "^DIf you come out, I will come in." The helmet has been well received, with a number of people thanking Babu for the information and agreeing to stay home.

Designer's 'flower flash' brightens up Manhattan streets

A designer is creating floral installations (鲜花装饰) on the streets of Manhattan that are meant to brighten the days of healthcare and other essential workers. Lewis Miller's most recent creation is a flower arrangement popping out of a trash can at the streets. A post with pictures of the "flower flash" as Miller calls them has gotten more than 16,000 likes in less than a day. Miller said, "It still surprises me reading the comments from yesterday's likes and makes me realize how much it feeds people's souls." As one person puts it, New York City trash has never looked so pretty.
