短文改错

The forest of my hometown is beautiful no matter how the season is. I
was driving slowly in this morning when I saw a deer live in the woods appear
in the middle of the road. I came to the full stop, and we stared at each other.
He seemed cleverly. He had been in this world for some month and I didn't
want ^ end his life. Finally, I motioned with my hand for him to go on. Having
seen anything to fear, he jumped across the road. I drive on smiling at the
magic of this moment but was thankful that I had been going slowly not to hit
this beautiful creature.

书面表达

Dear friends,

Our school produces a lot of rubbish every day, such as leftover food, waste paper and plastic bottles, which brings a wide range of environmental problems as well as the waste of resources. Therefore, it's time we took immediate action to change the situation to make our campus a better place.

As for the things we can do, first of all, it is necessary for us to raise awareness of environmental protection and develop the good habit of garbage sorting, which will make changes step by step. What's more, we should have a good knowledge of the different rules of garbage classification and voluntarily differentiate recyclable rubbish from non-recyclable in our daily life.

In a word, if everyone does his bit responsibly in garbage sorting, our school will become better and better. So it's high time that we should take action and make our own contributions together.
