### 语法填空

56. to	57. who	58. wrote	59. academically	60. tries
61. greatest	62. considered	63. a	64. tickets	65. remaining

### 应用文写作

One possible version:

My fellow schoolmates,

Recently, many students in our school have asked for a sick leave because of the flu. The lessons of one class even have been suspended for a week. If not dealt with properly, this infectious disease may seriously affect our normal life.

The student union would like to remind you that you need to wash your hands with liquid soap often and frequently air/ventilate your classroom and dormitory. Besides, it may also be helpful to drink more water and keep doing moderate physical exercise.

Wish everyone of you good health and all the best.

Student Union

### 读后续写

*All of a sudden, Betty felt something touching the bottom of her foot. She began to panic. She tried to climb on top of her surfboard and look to see what was swimming below. She turned around and saw a giant shark fin circling her. Before Betty could call out to her uncle, the shark attacked her surfboard. Luckily the shark missed her but now she was stuck in the water.*

*“Help! Help! Betty screamed in horror. Hearing Betty’s scream and seeing the shark, Uncle Mark was quick to act. By the time he arrived, Betty was exhausted from keeping herself afloat without a surfboard. Uncle Mark told Betty to grab onto his surfboard. He swam crazy and quickly brought them both back onto the shore. Betty was crying but felt safe as she knew Uncle Mark would always be there protecting her.*
