第二节

A Fantastic Trip

This summer I took a snorkelling trip to the undersea world, which turned out to be extremely fantastic.

The first thing I became aware of was all the vivid colors surrounding me---purples, reds, oranges, yellows and blues. Seeing such extraordinary beauty, I found my heart beating wildly and every cell in my body waking up. I began to explore the fantastic corals where all kinds of neat and elegant fish were swimming. Suddenly, I caught sight of an eel with its head showing from a hole watching for tasty food. I felt scared to death and fled away. But when I looked down into the depths of the ocean, I felt like discovering a whole new dimension of life.

Exposed in such deep clear water, I found my trip awesome!

W: **Hey guys! Welcome back to our channel. It's Lisa here.** Do you guys miss me? Today I'm going to talk about color. What I'm gonna talk about is not a common color like white, red, etc. It's a very special one. Every year a company called Pantone picks a new trendy color. **This year's color is coral!** It's not a very easy word to say, so let's practice. First say [kɔ r] like "core" and then say [əl], "coral". Coral is an orangey-pink. So, it's a little orange and a little pink. Corals are beautiful sea animals. There are many different colored corals, but the orangey-pink ones are the most popular. Pantone picked it because it's a very warm and natural color. **It makes people feel comfortable.** Coral is also a happy and energetic color. Pantone wants to bring coral into your daily life. Some coral cushions on the sofa may work. Or perhaps you can buy a coral lipstick. If you want to get together with your friends, a coral dress will be a smart choice. Would you like to have coral in your life? Or, maybe you're not a fan of coral. What's your favorite color? **Let us know in the comments. Thanks for listening! Catch you again next time.**
