## Tip 6: Guarantee high marks by good handwriting!

Personally speaking, it is dreams that have the incredible power to inspire me to go ahead unhesitatingly. As for me, I'm dreaming of being a policeman protecting everyone from harm since police are always courageous and bring sense of safety to the whole society. In an effort to fulfill my dream, I should attach great significance to participating in physical training, which can effectively build up my body. Additionally, having a good command of professional knowledge also plays an important role. Actually, the more hard-working I am, the <sup>better</sup> ~~bettle~~ I will be.

I do hope that all of us can make our dreams come true. Thank you for your listening.

## Fill in the blanks

Good morning, my dear friends!

I feel deeply honored to be here sharing my understanding (understand) of dreams. From the personal point of view, dreams are the targets we are chasing, which provide encouragement and inspiration. As Hemingway once wrote (write), “Man can be destroyed but never defeated (defeat)”. It’s dreams that make us determined to go forward.

As for my own dream, I have a strong desire to be a doctor since health is always the priority especially (especial) in the epidemic. It’s quite important for me to take action to make my dream come true. Success can be achieved with anything but laziness. It’s a must for me to accumulate related knowledge and get well prepared.

Hopefully, all of us will stick to our dreams and have a promising (promise) future.

That’s all, thank you!

## Writing sample

Good morning, my dear friends!

I'm very glad to stand here to give you a speech about dreams. A dream **is like a light tower, showing** the way when one is sailing on the sea, without which one may not know where he goes or even gets lost in life. Therefore, have a dream and that really matters!

As for my dream, I've decided to become a doctor to **help relieve** patients' pain or even save their lives, which, I believe, is helpful and **well worth doing**. However, realizing it is really a big challenge for me. Anyhow, I will work hard and go all out for it, **exposing myself to** books especially on medicine so that I can go to my ideal university. I'm quite sure I can achieve my dream. **As a saying goes: If you can dream it, you can do it.**

Thank you!

Remember

It's not only what you  
dream but also how  
you realize it that  
matters!!!
